## **EDUCATION**

---

### **Doctor of Philosophy, Communication (2017)**

Rutgers, the State University of New Jersey

### **Master of Public Health (*in progress*)**

Johns Hopkins University

### **Master of Arts, Health and Risk Communication–Public Health Specialization (2011)**

Michigan State University

### **Bachelor of Arts, Communication (2008)**

Michigan State University

## **POSITIONS HELD**

---

**Program Director, Public Health Undergraduate Program:** Arkansas State University,  
State University, AR

College of Nursing & Health Professions

Co-Division Lead, Center for No-Boundary Thinking Division of Medical Sciences and Public Health

Affiliate Faculty, Center for No-Boundary Thinking  
2022–present

- Developed curriculum for Public Health Bachelor of Science degree program
- Obtained all necessary approvals from the university curriculum committee, Arkansas Department of Higher Education, and Arkansas State University Board of Trustees
- Hired, mentored, and supervised faculty

**Assistant Professor:** Arkansas State University, State University, AR

Department of Occupational Therapy

Co-Division Lead, Center for No-Boundary Thinking Division of Medical Sciences and Public Health

Affiliate Faculty, Center for No-Boundary Thinking  
2019–2023

- Taught research sequence for Occupational Therapy Doctorate program
- Guided and oversaw doctoral student research as one of the program's degree requirements, adhering to accreditation standards

**Researcher:** Fors Marsh Group, Arlington, VA  
2016–2019

- Led research studies and guided project teams, from initial conceptualization of the research through implementation and data collection, concluding with analysis and reporting
- Responsible for overseeing the day-to-day success of research studies with the U.S. Food and Drug Administration (FDA) Center for Tobacco Products (CTP), FDA Center for Drug Evaluation and Research (CDER), U.S. Department of Health and Human Services (HHS), the Centers for Medicare and Medicaid Services (CMS), the Department of Defense (DoD) Federal Voting Assistance Program (FVAP), and the U.S. Marine Corps
- Interacted with clients and research partners on a regular basis, maintained project budgets, led project management, organized and planned data collection, provided guidance and expertise in enhancing research, developed data analysis plans and provided training to project team members, supervised analysis and reporting
- Mentored, trained, and supervised junior researchers and interns
- Contributed to and independently prepared proposals to obtain new work with government and private agencies

**Research Fellow:** Rutgers University School of Communication & Information  
2015–2016

- Developed survey instrument and organized dissertation project to collect data with people diagnosed with a mental health condition to identify facilitating factors and barriers to sharing health information; analyzed data using structural equation modeling
- Worked on NIH-funded grant that tailored face-to-face media literacy curriculum to an online environment that focused on reducing alcohol and tobacco use among rural youth; collaborated with research team to develop curriculum materials and generate content and activities
- Contributed to an additional NIH grant submission to obtain further funding, resulting in pilot testing the aforementioned media literacy curriculum and the curriculum's adoption as the *Drug Abuse Resistance Education* (D.A.R.E.) national curriculum for high school students
- Organized and managed large-scale coding effort to examine the themes arising from print tobacco advertisements
- Responsible for developing research protocols, organizing and overseeing data collection, and conducting analyses

**Research Fellow:** Rutgers University Cancer Institute  
2014–2015

- Worked on NCI-funded grant that examined various social influences on indoor tanning
- Responsible for cleaning and analyzing nationally representative sample of tanning behavioral data, making weighting adjustments as necessary

- Examined prevalence and correlates of indoor tanning behavior among young women

**Graduate Research and Teaching Assistant:** Rutgers University School of Communication & Information  
2011–2015

- Cleaned, screened, and analyzed data for multiple research efforts using statistical techniques including exploratory factor analysis (EFA), confirmatory factor analysis (CFA), analysis of variance (ANOVA), analysis of covariance (ANCOVA), multiple regression, logistic regression, structural equation modeling (SEM), and multi-level (mixed) modeling
- Collected and analyzed data, developed surveys and codebooks, and wrote manuscripts for NIDA-funded grant that tested a face-to-face media literacy curriculum aimed at reducing substance use among rural youth
- Oversaw large-scale qualitative coding effort of smokeless tobacco print ads to determine the strategies that tobacco companies used to target youth
- Conducted interviews with sensitive population (HIV+ individuals) about their experiences disclosing their diagnosis and analyzed these data
- Organized, prepared, and collected survey data with cardiology patients in a medical office setting about sharing health information
- Mentored and supervised undergraduate research assistants who provided project support on various research efforts
- Developed survey instrument for measuring romantic partner facilitating and interfering behaviors in weight loss efforts
- Organized and conducted longitudinal survey data collection with individuals trying to lose weight about perceptions of their romantic partners' helping and hindering behaviors
- Analyzed nested data using multi-level modeling

**Research Assistant:** Michigan State University Department of Communication  
2009–2011

- Collected survey data with college student sample about their use of the campus mental health services; results informed campaign to increase awareness of available services
- For the Michigan Nutrition Network, moderated focus groups asking parents of different racial and ethnic backgrounds to evaluate nutritional materials for health literacy and cultural relevance
- Also for Michigan Nutrition Network, collected interview data with parents and their children about their nutrition decision-making and behavior
- Developed and created messages and designed materials for the FIT social marketing campaign aimed at increasing physical activity and healthy nutrition practices among youth

**Public Health Intern:** Michigan Department of Health & Human Services  
2010–2011

- Provided research and project support for the Diabetes and Other Chronic Diseases Section
- Maintained evaluation database for *Personal Action Toward Health*, a program based on the Stanford Chronic Disease Self-Management Program

**Project Manager:** Michigan State University College of Nursing  
2009–2010

- Organized and oversaw focus group study examining infant feeding practices among Native American mothers and health professionals
- Used NVivo to analyze focus group data and identify emergent themes
